Key Business Insights

- 1. Technology category generated the highest sales among all product categories.
- 2. The West region contributed the highest sales, indicating strong market performance.
- 3. Sales showed fluctuations over time with noticeable peak periods, suggesting seasonal demand patterns.
- 4. A small group of customers contributed a significant portion of total sales.
- 5. Certain states generated considerably higher sales than others, highlighting important target markets.

Recommendations:

- Increase focus on high-performing categories such as Technology.
- Strengthen marketing efforts in top-performing regions.
- Analyze seasonal trends to improve inventory planning.
- Develop customer retention strategies for high-value customers.
